Matheus Machado's Professional Statement

I am a proactive and dedicated IT professional currently seeking opportunities in digital security. My experience in help desk and support, gained through assisting companies like **Stryker** and **Boston Scientific**, has provided me with a solid foundation in IT operations and Windows and Linux system maintenance. I am currently deepening my cybersecurity knowledge with an ongoing Bachelor's degree from **Saint Leo University (USA)** and am in the process of obtaining a **Google Cybersecurity certification**. My goal is to apply my skills in system protection, malware mitigation, and system administration to strengthen the security objectives of various organizations.
